13 this discussion will continue when they can be present.

28 meeting to let them know what the COPs do and what their handicap policy is in Volusia County.

29  
30 Mrs. Beauregard added that her organization (UCP) offers public education on handicap issues  
31 and she would be willing to come to City Hall to train staff.

32  
33 **7. NEW BUSINESS:**

34  
35 **A. Other:**

36  
37 Mrs. Brown explained that this category was added to the agenda in case there was a topic the  
38 members wanted to discuss.

39  
40 Mr. Moore talked about the acquisition of another park and indicated that there would be a naming  
41 contest. Mr. Moore told the members that Public Works and Storm Water had put in a grant several  
42 years ago to develop the old chicken ranch property off Doyle Road and Lush Lane which consists of  
43 60 acres. He said there is a storm water pond, they built a bridge that is part of the trail that goes over  
44 the pond and they made a trail through the property that goes out to the trail to the county. He said  
45 there is a gate back there and there are wetlands that cannot be developed as a part of their permit but  
46 the 60 acres is going to come on the City's inventory.

1 Mr. Moore continued that Parks would be involved with that project and would be responsible for  
2 opening and closing the park as well as scheduling some improvements in the future and possibly  
3 adding some pavilions to make it a recognized handicap accessible trail, which the Parks Department  
4 will maintain. He said the trail would wind through some other parts of the property eventually. He  
5 said the grant was satisfied and is closed. Mr. Moore planned to work out an arrangement with the  
6 County to have the gate open and to have it closed at night.

7  
8 He said there will also be some improvements to the parking lot as it is too small. He added that there  
9 is an area that could be used as an environmental area where they could identify plants and schedule  
10 school tours, etc. to go through the property. He said a part of the grant was given to Public Works  
11 for its storm water pond but they will turn it over to Parks for maintenance although it is a Storm  
12 Water deal. He continued that there are opportunities to generate revenue if they rent it out.

13  
14 The members all wanted clear directions on how to find this park and Mr. Moore told them how to  
15 get there from Doyle Road.

16
